THRU : Chairman, Projects and Review Committee
Deputy Executive
Chief, Administrative Staff

5 January 1950

Request for Approval of Project

25X1A

In accordance with Administrative Instruction [REDACTED] dated 30 December 1948, Subject: "Projects", approval is requested for the establishment of a Consultants and Contract Physicians Program in the Medical Division, Administrative Staff.

The purpose of the program is to utilize the consultants to provide diagnostic assistance in those cases normally requiring specialist's procedures. The use of the contract physicians will be to medically evaluate prospective overseas employees, who, for security reasons, cannot be processed through established channels.

This will be a continuing program and funds for this purpose will be requested in the Medical Division budget for the Fiscal Year 1952.

It is estimated that the fees for consultants for the balance of this Fiscal Year will be \$2000.00, and the fees for contract physicians will be \$500.00. Consultants's fees during the Fiscal Year 1951 is estimated at \$5000.00 and contract physicians's fees at \$1000.00. Summarized, the amount requested is:

	FY 1950	FY 1951	
	\$2000.00	\$5000.00	
	500.00	1000.00	
TOTAL	\$2500.00	\$6000.00	\$8500.00

It is recommended that confidential funds be used for this purpose inasmuch as these services will, in practically all cases, be utilized in processing individuals for overseas assignments.

It is anticipated that approximately six consultants, each in their specialized field, will be needed and, because of security, six to ten contract physicians would be required.
